## HEXED

was formed in 2015 by Lead-Vocalist **Tina Gunnarsson** and Guitarist/backing-vocalist **Stellan Gunnarsson** in Uppsala, Sweden. Both of them played in several bands before and had an early history in the metal scene and of music composing. Now they wanted to create and write music together, something completely new. When the song writing started they knew exactly what kind of sound and style they were aiming for.

Since both of them had the source of inspiration from bands such as **Queensrÿche, Crimson Glory and Pagans Mind**, they knew that they wanted to create metal music with focus on strong and powerful vocals combined with melodic guitars.

When the songs and preproduction was done and when recordings was about to start they had to find members who got the qualitys required to setup the band. The driven Bass player **Daniel Håkansson** who played earlier in other metal bands were chosen to take place along with the experienced musician **Teddy Möller** on drums. In 2018 Teddy left the drums to be the second guitarist along with Stellan. **Simon Aspsund** took over the role as the new drummer in Hexed.

The debut single and first lyric video **“Dreams”** was launched in the beginning of May 2016.

Meanwhile the album **“Netherworld”** was recorded and produced in 2017, HEXED released their second official music video **“Exhaling Life”**

Both the song and video contains amazing guest-vocals from **Thomas Vikström - Therion, Candlemass** and it is filmed and produced by Magnus Ewald who also has made videos for bands like **Liv Sin, Crucified Barbara, Firespawn** etc.

The third single and lyric video **“Lightyears”** was released in May 2017.

The interest and response for HEXED after the early releases was overwhelming and HEXED got several proposals to consider and are now proud for the decision to sign with Thomas Hörnkvist at **ViciSolum Productions**.

The Swedish metal label has already several established bands in its row such as **Persefone, Loch Vostok, Poem**.
